*For Your
Stellar
Smile!*

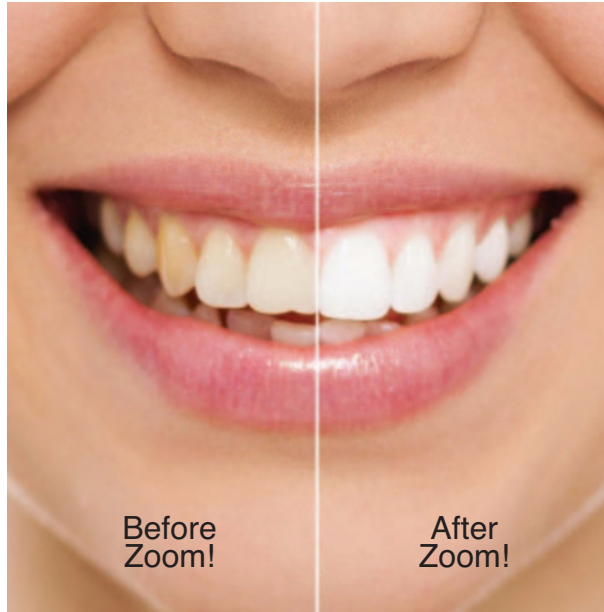

Who doesn't want a whiter smile? After all, it's a reflection of overall good oral health. But what's the best way to whiten your teeth?

Over-the-counter kits are popular but can come with the risk of sensitivity and gum irritation. When you're looking for the best whitening treatment, you should always consult your dental professional to ensure you get great results, and a process that's safe and gentle on your teeth.

To get the brightest smile possible, check in with your Stellar Dental Care dental professional for an in-office treatment.

Whitening with whitening lamps gives the most intense results, accelerating ingredients to get to work and reverse staining. As your dental professional carries this out for you, you can be sure you're getting a safe whitening treatment.

This kind of whitening is especially effective if you have deep discoloration, maybe from years of smoking, drinking wine and coffee, or taking certain types of medication.

With Zoom!, your smile can whiten up to 8 shades in a single 45 minute visit. Not only do you get a whiter smile, your Stellar dental professional will follow up whitening with our post-treatment gel that's clinically proven to reduce sensitivity and help protect enamel.

With outstanding whitening and little to no sensitivity, you get the best of both worlds!

Our Maximum Whitest Smile!

Why wait for results when you can have whiter teeth now? With the Zoom, In-Office Whitening System, you can achieve your whitest smile in just one 45 minute visit to your Stellar Dental Care office.

Light-Activated Technology for Powerful Whitening

Unlike many other systems, Zoom uses a proprietary LED light to accelerate whitening for maximum results in minimal time. Proven safe and effective on teeth and gums, Zoom lamp is backed by studies that have shown it is safe and effective for your teeth and gums. 95% of patients surveyed agree the Zoom lamp produces excellent results.

14 Million Smiles and Counting

The Zoom lamp is part of the Zoom whitening family, the #1 patient-requested professional whitening brand that's been trusted by over 14 million people already. In fact, Zoom has a 96% patient satisfaction rate; results based on a 500 person U.S. study. And, was designed to help improve the health of your smile.

Adjustable Intensity Settings

Unlike some other whitening systems, Zoom professional light-activated whitening system has adjustable intensity settings and can be customized to eliminate sensitivity to maximize your comfort during the whitening procedure. In fact, over 90% of people surveyed experienced little to no sensitivity during the whitening procedure with our Zoom lamp.

Recommended and Administered by Your Stellar Dental Care Dental Professional

Zoom lamp/accelerator and the Zoom Whitening System are administered by your dental professional, so you know it's the best, healthiest option for your teeth.
